### Makkah Area Security Projects Group2

**EPC Contract**

The main scope of work objective for NWC Makkah Area project is to detail the actions and processes that must be performed by the Contractor to achieve an integrated security solution compliant with HCIS requirements, found in all relevant Sections of the HCIS SEC Directives 2017.

The works related to the security system described in this SOW document shall be integrated to the main Integrated Security System (ISS) at further specified Security Control Centers.

The Security Contractor shall take the Stage 2 – Preliminary Design and associated schedules and drawings, and based upon it, produce a comprehensive Stage 3 – Detail Design package, comply with SEC directives. This Detail Design package serves as the final design and specification documentation to be approved by HCIS for construction and installation of the security system and infrastructure.

Security Contractor shall follow the Security Project workflow as per SEC Security Project management. Approval of documentation for Stage 3 is required from HCIS prior to the construction, procurement or installation of any new security equipment, system or security infrastructure. Approval of Stage 4 documentation is required during the commissioning stage of the security system but prior to declaring the facility operational.

The Project consists of the following 7 Locations:
- 1. Million Tank Common Area
- 2. Strategic 560 thousands Hareem Tank Alshuhada
- 3. Million Tank
- 4. Kara Alazizia
- 5. Strategic Reservior Almoasim
- 6. Matitu Alshooibayen Tank
- 7. King Fahad street tank
